THE Agents (Messre Jardino, Matheson & Co.) inform us that the S. S. Lennez left Singapore for this pore to-day, the 30th January.

We have to acknowledge receipt; of the programme for the Hongkong Rack Meeting for 1882. The Challenge Cup; a forced entry, has a list of no less than 65 ponies, which looks well, and may secure large fields, if nothing else.

Ir is notified in the Gazette that an extension of three months' loave on half salary, commoneing on the 18th inst., has been granted to Mr C. V. Creagh, Deputy Superintendent of Police.

By Broad Arrow received by French mai to-day we observe that Lieutenant F. A. Newington, Royal Marine Light Infantry, obtained his captaincy on the 13th December last. Captain Newington joined the service in June, 1868, and has been doing duty for over twelve months past on board the Victor Emanuel.

The company purpose making a short stay in Hongkong, 3 p.m.—Auction of Piece or Parcel of and have lost no time in commencing business, as will be seen from an advertisement elsewhere. A European seaman met with an accident Noon. -- Auction of Wreck of S.S. It is said that he fell into the dock and sustained injuries which rendered him insensible by the time he was able to obtain medical attendance, but to-day we learn his case shows favorable symptoms, and he is much improved.

THE letter, which we reproduce in another column from the St. James's Budget of 23rd December, speaks for itself. Any comment thereon would be little else but a repetition of the grievances which we have endeavoured to express ever since Governor Hennessy began to develop his crooked policy, and which are fairly summarized by "H. H. N." That the "cry" will be answered is the earnest wish of nearly every resident of this Colony. One curious point about this development ois this, that the metropolitan journal which has been the first to take up the cry from Hongkong is one of the foremost Conservative organs of the country. This fact would seem to imply that both the great parties are beginning to be a little ashamed over the lengthened sufferings of Hongkong residents. Had the source of the cry been Liberal or Radical, some other explanation may have been possible than that of unbearable administration. The St. James's Gazette is a Conservative of Conservatives. At the same time, it is hard to say, in these days of change, to what party Sir John from these countries, are now filed for Pope Hennessy would now attach himself in England,—or Ireland.

An Inquest, adjourned from Saturday, was

resumed this afternoon (30th) before the Coroner, H. E. Wodehouse, Esq., and the following gentlemen as a jury: Messra William Wilson, J. Y. Vernon Vernon, and A. A. da Cruz, touching the death of the child, which died in the Tung Wah Hospital on the 23rd instant. Dr Marques further stated to-day that the diseased condition of the spleen must have existed for some time previous to the alleged assault: and that the particular condition it was in was common in malarious districts. He considered that the pneumonia and condition of the spleen had been brought on by exposure to cold, and though death had not resulted from starvation, still the child had not received the nourishment necessary. Lai Lai Lam, doctor in the Tung Wah Hospital, whose especial duty was to attend to children and vaccinations, said the parents, on their first visit, were unable to express their want properly, as they spoke a different dialect from him. He understood them, however, by their actions to. mean to convey the impression that the child had been assaulted, and he referred them to another ward. He knew nothing more about what occurred that day, but the following day he took the child, which was suffering apparently from a very severe cold, its eyes being almost closed, and its threat being almost entirely choked with phlegm, into the Hospital. The child had great difficulty in breathing, and died that same night. He was unable to say what had been the cause of death. This concluded the evidence, and the jury found that the evidence was not sufficient to prove that death had been accelerated by the fall. This therefore relieves the prisoners from the charge of manslaughter, but the charge of assault still remains against them; and they will be brought up on that charge to-morrow.

DYNASIY. The laws of the Ming Dynasty, 一大川 律J, were compiled towards the and of the reign of At THE Some stories are told of Hung-wet which might be pro-fitably taken to heart by the pinties who figure in the modern Folies Takette. A son had but out a piece of his rib to ours his sick mother with, and rowed to ascrifica this son if the recovered. The Emperor sensibly ordered him 100 blows on the breech. On another occasion, he saked an old man who had been falsely accused of plotting against the Emperor low it was he had such a vast and well-knit family. "By keeping order, and never listening to wives" was the answer, and highly approved by his Majesty, whose own wife, however, was the most eenable of women. The firing of Bombs is strictly prohibited. "Endymion" in the Queenslander writes as follows on the qualities of Sir Arthur Kennedy as a Governor !--

Everybody may be pardoned for feeling curious to know who will be Sir Arthur Kennedy's successor, and whether he will be a duke, a marquis, an earl, a baronet, a knight, a plain esquire, or a military officer. At any rate, we shall not get a better constitutional governor than Sir Arther Kennedy has proved, nor one who will set a better example of frugality and clean living. But we may be blessed with a far more popular governor, possibly. The shopkeepers tell us his present Excellency does not encourage trade by indulging in frequent balls and other dressy entertainments. Society, too, somewhat resents Sir Arthur's prolonged seclusions at Toowoomba, and holds that were there more gaiety at Government House it would not be so difficult for match-making mammas to introduce their marriageable daughters to marrying men. But the mass of the people, who don't get invitations to Gover ment. House, and who don't sell ducks of bon lets or silk dresses, are quite satisfied with Sir Arthur Kennedy's representation of her Majesty's dignity in this colony. Still, I admit that in governors, as well as in most other good things, an occasional change is expedient, and I am not at all disposed to quarrel with the rule which requires the Queen to send us a new representative every five years. There is some-

CONCERT AT THE CLUB GERMANIA The musical entertainment given on Saturday night at the German Club by the mentbers of that institution, though strictly speaking not a concert subject to public criticism, was one which it would be a pity to pass unnoticed. Our German friends are by far the most musical section of the community; and as they appear to devote more time and introduce a stricter system into their devotion to the art, they are always able to distinguish themselves at the shortest notice. These musical evenings are well known and highly appreciated; and if we are not mistaken, an additional interest was imported into that of Saturday last from the fact that it was so timed as to be a farewell to an amateur piano-performer the like of whom it may no be the good fortune of this Colony to see to many years. We refer, of course, to Mr Rennell of Canton, who has taken so deep an in terest in everything musical in Hongkong as well as in Shamien for the last few years. Mr Rennell left for Europe by the French Mail to-day, with many a sincere wish for his future prosperity and many regrets that he was thus depriving two communities of one of the musical treats of the season. The hall, or theatre; at the Club was filled with guests, amongst whom might have been observed - H. E. Sir John and Lady Hennessy, H. E. Lieut. General and Mrs Donovan, Admiral Duperrs, the Acting Chief Justice and Mrs Snowden, a large number of naval, military and civil officers, and most of the leading evenings so liberally given by our German foreign residents. The stage was most tastfully decorated, while the massive bust of H. I. M. the Emperor William was beautifully centred in a clustering profusion of plants and drapery while the arrangements for the guesta were most satisfactory.

The Concert of Saturday was certainly the most attractive musical evening given in Hongkong for many years, and, as hinted, it having been got up in the short Encos of about a week, the credit due to those concerned is all the greater. The H.E. the Governor. The appointment of following is the programme :-

Mr Rennell, in his performance of Becthoven's Sonata in C, displayed that clear intenation and brilliance of execution which are now so familiar to all, and which unquestionably rank this artist amongst the most highly talented pianists of the present day. His momory, too, would seem to be growing in proportion to the vigour and grace of his fingering, for he played through the Sonata in a faultless manner without the aid which the music usually supplies. Mr Rennell also accompanied throughout the evening, and elicited the admiration of all by his thoroughness and good taste. In the pianoforte duet with Dr Clouth, the two masters appeared for the last time together before a Hongkong audience, and the manner in which this

piece was played tended, if possible, to depen the regret at the farewell character of the entertainment. The matter was duly brought before the Consul at Wuhu, and after full investigation the official Mr Ramasse, was exonerated from all blame, and reinstated in his position.

A rather ingenious robbery occurred on oard the Fuk-wa, one or two voyages back which is worthy of record. It appears that a "small" mandarin took a passage down the river in this boat and slept in the ordinary passengers' cabin. He had with him a small box which contained Tls. 100 and which he made a pillow of. The next passenger to him in the sleeping compartments was one of the ordinary class, and had a large box of luggage. At one of the ports the "ordinary" went on shore, of course leaving his luggage; but it was found during his absence that the "Mandarin's" box had been broken open and the taels extracted. On the compradore opening the box of the missing passenger it was found to contain about ten dollars' worth of goods. and as he took away good interest for the same, probably he will not return to claim his baggage. The road opened last year at considerable expense to the Chinese merchants—which followed the southern bond of the Tapeng River-The charge was clearly proved, and she has been abandoned. The Chinese could not comply with the demands of the Ka-Kyens on that route.

> There has been a good deal of obstruction and trouble on the route north of Tapeng, which goes through Manwyno and which has been the main road for traffic ever since the Mohammedan rising in Western Yunnan. The Tsao-tong chief made some heavy raids on the caravans in the early part of this year, which exasperated the Chinese merchants so much that they hired a number of Celestial desperadoes to go to. this chief's village and despatch him. These fellows succeeded in burning down his house; but lost several of their number in the fight that ensued. The Sub-profect of T'eng-yüch has since issued a proclamation-at the instigation of the merchants offering a large sum of money for his head; but this independent brigand says that he will not be satisfied till the Chinese build him a good new house, and besider hand over the moderate sum of 25.000 rupees by way of indemnity. The distinguished Hungarian traveller Count Bela Szechenyi had to pay this same individual Tla. 240 black-mail before he would let the Count and party leave his house. This

happened in February 1880. Large numbers of Shans and Chinamer are arriving almost daily en route for the jade-mines at Mogoung. It is expected that a large quantity of jade will be turned out this year; and many are looking forward to making a good thing of it at the mines. The Lapiving, 3, gunvessel, Acting Commander F. H. During her seven years' service on the China Station the Lapping has had some painful experiences. She was first commissioned at Devonport in September, 1874, her then commander being Sir William Wiseman, Bart., and two years-after her arrival in the China sons had the misfortune to run ashore near Chefon, a violent gale heaving her right upon the beach. She was afterwards floated off. after everything had been cleared out of the vessel except her machinery, the success of the arrangements being mainly due to Mr Howard, the harbour master at Chefoo. The repairs to the Laplving were subsequently completed at Shanghai, in 1877. sent a circular note last November inviting and the late Commander W. G. The instrument bore the name of its maker, who states that he sold several such to Captain Templer for aeronautic purposes. Captain Templer also recognised the instrument by the description forwarded to him ; and lastly M Powell's brother and sister, who travelled to Weymouth to see the thermometer, have atorial Election is a Republican gain of arrived at the same conclusion. It may be assumed, therefore, that the thermometer is a relic of the balloon. The most obvious interpretation is that the balloon descended into the English Channel at once on quitting Bridport, that the unfortunate Mr Powell perished close to the Dorsetshire coast, and that the fragments of the balloon and its contents are now being drifted to land This is the most probable theory; but it is also possible that Mr Powell, finding the balloon sinking, may have thrown out the instruments to lighten the cargo. But in any case the hope of ultimately recovering Mr Powell alive has, we fear, become very slender.

Since the works in connection with the Channel Tunnel experiments were commenced at the new heading at Shakespeare's Cliff the operations have been so successful that the first quarter of a mile is now completed. THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details. THE CHINA REVIEW, or Notes and

Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipologo and the "Far East" generally. A more detailed list of subjects upon which contributions are especially. invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

rdepartment. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is ilesirable to make the Queries proper an brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholare are ascertaining about China. The lecture on Chinose Poetry in this volume is alone worth the price of the Review. Address Chista Review, Hongkong. - Northern

Ohristian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review : _ " This Is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on fact as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful scrials a year or two ago has been much regretted in Europe as well as In China. Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calculta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the mombers of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarabin is now arsiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable, to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly givon, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, If carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that, this opening for contributions on Chinese subjects may evoke a similar

degree of literary zeal to that which was

displayed during the lifetime of its prede-

cessor in the field, and that the China Review

may receive the support necessary to insure

its continuance. The publication is intend-

ed to appear every two months, and will

form a substantial octavo magazine.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever

issued under purely native direction. The

chief support of the paper is of course derived from the native community. amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, - consider themselves

justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 cories. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements. Subscription orders for either of the
